

## Our Value Offering

# 3M Spill Control

## PRODUCT CATALOGUE

### More than just great products

3M's Respiratory Protection, Hearing Protection, Eye Protection, and Spill Control products are supported by a variety of industry leading services to make sure the right products are selected and used to their greatest advantage.

### Specialist Field Force

3M has Technical Specialists who understand the product range and it's application. 3M can arrange for site surveys, product training, fit charts, and even arrange for fit testing.

### TechAssist Helpline 0800 3M HELP

TechAssist is the ideal point of contact for your respiratory, hearing, eye protection, and spill control questions. Supported by trained staff, TechAssist is an immediate link into the worldwide resources of 3M.

### Wide Distributor Network

3M distributes it's Respiratory Protection, Hearing Protection, Eye Protection and Spill Control range through a distribution network which covers all major areas of New Zealand. Please contact 3M to find your nearest 3M Authorised Distributor.

### Advanced Sorbents

The 3M range of sorbents are designed to absorb a variety of liquids from maintenance fluids, lubricants, oil and petroleum based liquids, to a wide range of acids, bases, coolants and other hazardous fluids.

3M sorbents are lightweight, easy to deploy in the event of a spill and creates less waste. 3M sorbents are non abrasive, dust free and easy to clean up. There are configurations available to suit almost any spill.

### Microbundle Technology

Since pioneering the synthetic sorbent, 3M has continued to develop the technology of its sorbent range. 3M's patented microbundle technology employs millions of tiny voids to absorb liquid - effectively doubling the capacity of the material. This ensures that less sorbent is required for a spill and there is less waste.

### Important Information

3M sorbents are relatively inert and do not alter the chemical properties of absorbed liquid. Used sorbents should be handled, labelled and transported in accordance with safety and environmental regulations for the absorbed liquid.

When handling chemicals you must be aware of potential health & safety hazards which exist. The correct respiratory protection and personal protective equipment must be used to protect against the hazard.

Always refer to the product Material Safety Data Sheet for the spilt substance.

# 3M™ Petroleum Sorbents

## Proven performers

3M petroleum sorbents are designed specifically to control, clean and recover oil and other petroleum based fluids. They repel and float on water while absorbing hydrocarbon based fluids.

These sorbents are available in many configurations including, booms, sheets, pads, pillows and rolls. The 3M sorbent range can be reused, with 90% of the absorbed oil able to be rung out and reclaimed.

### 3M™ Mini-booms T4

This boom can be used to contain and encircle small spills. The T4 is easy to deploy and can be used in many applications.

Product Code	3M Order Code	Dimensions	Capacity	Packaging
T4	70070221364	1.2m x 7.5cm	3.8L /boom	12 booms /case

### 3M™ Large Oil Sorbent Pillows T240

These open mesh bags are excellent for deployment in spaces such as sumps, boat bilges and catchment areas. Being UV resistant, the T240 pillows are designed for long term use.

Product Code	3M Order Code	Dimensions	Capacity	Packaging
T240	98071101996	63cm x 36cm	13L /pillow	10 pillows /bale

### 3M™ Oil Sorbent Mini-booms T12

This boom can be used to contain and encircle spills. The T12 is easy to deploy and can be used in many applications.

Product Code	3M Order Code	Dimensions	Capacity	Packaging
T12	70070221380	3.6m x 7.5cm	11.3L /boom	4 booms /case

### 3M™ Large Oil Sorbent Booms T270

These booms can be linked together by in built connectors to overlap and contain spills and discharges in large areas such as streams, rivers, lakes, and docks. Designed for long term deployment, the T270 booms have a large absorption capacity and are UV resistant.

Product Code	3M Order Code	Dimensions	Capacity	Packaging
T270	98071106334	3m x 20cm	76L /boom	4 booms /bale

### 3M™ Large Oil Sorbent Sheets T157

These sheets have a much larger sorbent capacity than conventional pads, and are simple to apply and retrieve. The sheets are ideal for clean up on large hydraulic machinery and also in clean up applications on waterways.

Product Code	3M Order Code	Dimensions	Capacity	Packaging
T157	98071107563	96cm x 86cm	6L /sheet	50 sheets /bale

### 3M™ Oil Sorbent Roll HP100

HP100 rolls have excellent absorption capacity and are ideal for fast coverage of large areas during oil or petroleum spills or during maintenance work.

Product Code	3M Order Code	Dimensions	Capacity	Packaging
HP100	70070313781	44m x 97cm	277L /roll	1 roll /case

Microbundle Technology

# 3M™ Petroleum Sorbents

## Proven performers

3M petroleum sorbents are designed specifically to control, clean and recover oil and other petroleum based fluids. They repel and float on water while absorbing hydrocarbon based fluids.

# 3M™ Chemical Sorbents

## The comprehensive site safety solution

3M chemical sorbents are relatively inert and powerful enough to handle dilute acids, bases, coolants, solvents, oils and many other hazardous liquids - eliminating the need to stock several different sorbent types.

### 3M™ Oil Sorbent Pads HP156

Easy to apply and retrieve, these pads are highly absorbent and can be used on land and water in numerous clean up and maintenance applications.

Product Code	3M Order Code	Dimensions	Capacity	Packaging
HP156	70070317329	43cm x 48cm x 0.5cm	1.4L /pad	100 pads /bale

Microbundle Technology

### 3M™ High Performance Chemical Pad C-PD914DD

Packaged in a convenient dispenser box, these pads are ideal for small spills and wiping down contaminated tools and equipment. Pads have a scrim liner for added strength.

Product Code	3M Order Code	Dimensions	Capacity	Packaging
C-PD914DD	70070408235	23cm x 36cm	590ml /pad	25 pads /box

Microbundle Technology

### 3M™ Petroleum Folded Sorbent P-FL550DD

3M folded sorbents are 4 sorbents in one. Able to be used as a boom, sheet, pad or pillow, this allows one product to be stocked for almost any petroleum spill. The high capacity sorbent has a scrim on one side to increase strength and help prevent linting. Perforations every 40cm permit the required length of sorbent to be selected so there is no waste. The handy dispenser allows easy on site or off site use.

Product Code	3M Order Code	Dimensions	Capacity	Packaging
P-FL550DD	70070408979	45cm x 15m	40L /box	3 boxes /case

Microbundle Technology

### 3M™ High Performance Chemical Roll C-RL15150DD

Rolls have a scrim liner for added strength. Designed to cover large areas - the chemical roll is a very cost effective method of spill control, allowing users to tear off desired amount.

Product Code	3M Order Code	Dimensions	Capacity	Packaging
C-RL15150DD	70070408243	45m x 38cm	117L /roll	1 roll /case

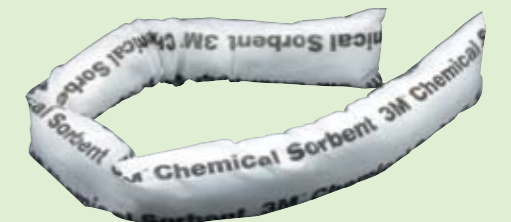

Microbundle Technology

### 3M™ Powersorb Miniboom P-200

Light weight and easy deploy, the booms can be used to contain and encircle small spills.

Product Code	3M Order Code	Dimensions	Capacity	Packaging
P-200	70070189314	1.2m x 7.5cm	3.8L /boom	12 booms /case

# 3M™ Chemical Sorbents

## The comprehensive site safety solution

3M chemical sorbents are relatively inert and powerful enough to handle dilute acids, bases, coolants, solvents, oils and many other hazardous liquids - eliminating the need to stock several different sorbent types.

# 3M™ Maintenance Sorbents

## Fast acting. Highly absorbent. Easy to use.

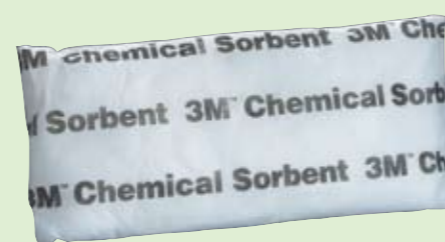

3M maintenance sorbent absorbs almost any type of non-aggressive liquid. Its high fluid capacity means the need to change the sorbent is less frequent, saving on material, labour and disposal costs.

### 3M™ Powersorb Pillow P-300

The P300 pillows can be placed at the source of a spill or used to clean up a contained spill.

Product Code	3M Order Code	Dimensions	Capacity	Packaging
P-300	70070189322	23cm x 38cm	2L /pillow	16 pillows /case

### 3M™ Maintenance Folded Sorbent M-FL550DD

Microbundle Technology

3M folded sorbents are 4 sorbents in one. Able to be used as a boom, sheet, pad or pillow, this allows one product to be stocked for almost any fluid spill. The high capacity sorbent has a scrim on one side to increase strength and help prevent linting. Perforations every 40cm permit the required length of sorbent to be selected so there is no waste. The handy dispenser allows easy on site or off site use.

Product Code	3M Order Code	Dimensions	Capacity	Packaging
M-FL550DD	70070407914	45cm x 15m	40L /box	3 boxes /case

### 3M™ Chemical Folded Sorbent C-FL550DD

Microbundle Technology

3M folded sorbents are 4 sorbents in one. Able to be used as a boom, sheet, pad or pillow, this allows one product to be stocked for almost any chemical spill. The high capacity sorbent has a scrim on one side to increase strength and help prevent linting. Perforations every 40cm permit the required length of sorbent to be selected so there is no waste. The handy dispenser allows easy on site or off site use.

Product Code	3M Order Code	Dimensions	Capacity	Packaging
C-FL550DD	70070517167	45cm x 15m	40L /box	3 boxes /case

# 3M™ Spill Response Kits

## Be prepared for a spill emergency.

With 20 years experience, you can be sure that the products included in 3M spill kits can quickly and effectively deal with a spill emergency.

- Easy to follow spill response instructions & procedures
- Fast acting high performance sorbents
- Lightweight Personal Protective Equipment

## Chemical Spill Response Kits

### 3M™ 140 Litre Capacity Chemical Spill Response Kit SPK-140L

The 140 Litre Kit is ideal for any areas where chemicals are shipped, stored or transferred.

Contents	Description
1	Wheely Bin
3 1/2	Sorbent Chemical Folded Rolls 3M C-FL550DD
1	Apron
1	Pair of solvent & oil resistant gloves
1	Plastic Bag
1	Respirator - 3M 4277 (A1B1E1P2)
1	3M 1621 Goggles

Product Code	3M Order Code	Capacity Packaging
SPK-140L	XH000766218	140L /kit 1 kit

### 3M™ 70 Litre Capacity Chemical Spill Response Kit SPK-70L

Contents	Description
1	Wheely Bin
1 3/4	Sorbent Chemical Folded Rolls 3M C-FL550DD
1	Apron
1	Plastic Bag
1	Pair of solvent & oil resistant gloves
1	Respirator – 3M 4277 (A1B1E1P2)
1	3M 1621 Goggles

Product Code	3M Order Code	Capacity	Packaging
SPK-70L	XH000766200	70L /kit	1 kit

### 3M™ 10 Litre Capacity Chemical Spill Response Kit SPK-10L

Contents	Description
1	Plastic Pail with Lid
1/4	Sorbent Chemical Folded Roll 3M C-FL550DD
1	Apron
1	Plastic Bag
1	Pair of solvent & oil resistant gloves
1	Respirator – 3M 4277 (A1B1E1P2)
1	3M 1621 Goggles

Product Code	3M Order Code	Capacity Packaging
SPK-10L	XH000766192	10L /kit 1 kit

### 3M™ 5 Litre Capacity Chemical Spill Response Kit SPK-5L

Contents	Description
1	Plastic Pail with Lid
1/8	Sorbent Chemical Folded Roll 3M C -FL550DD
1	3M 9916 Respirator
1	Plastic Bag
1	Pair Solvent & Oil Resistant Gloves
1	3M 1621 Goggles

Product Code	3M Order Code	Capacity	Packaging
SPK-5L	XH000766184	5L /kit	1 kit
